PORTFOLIO

Check my portfolio at: (copy and paste it if the link is not supported on your browser)

https://glistening-croquembouche-f6a006.netlify.app/

I have modified pre-existing websites so I practice the ability of working with pre-existing code. I also have my own built-from-scratch projects.

EXPERIENCE

Frontend Web Development with Next JS 14 and Tailwind CSS.

I have developed my own projects as well as I modified pre-existing projects built in Next JS. The ability to create from scratch and to modify pre-existing code is something that I highly value.

Frontend API consume

I have developed Next JS and React JS projects that use external API'S as well Typescript to prevent errors in the code.

University and Self-Leaning

I have gone to University for 3 years in IT and I studied and practiced 100's of hours. I am constantly developing my skills and every single week I learn about a new technology.

EDUCATION

TECHNICAL SKILLS

National University Of Quilmes, Buenos Aires

— Bachelor in Informatics (I.T)

2021 - 2024

I have learned about databases, programming, how computers work and how to work in teams. Other skills and technologies also.

Self Learning, Internet

2020 - now

I have been self taught a lot. I understand the importance of practicing and keeping learning. I have learnt more on my own that I could have ever imagined and I will never stop learning.
